

Life in the Vineyard Series

*As we explore the life-cycle of the Grape Vine
you will discover for yourself how this powerful
metaphor of Jesus' life & teaching can enhance
your spiritual path.*

- We begin in January when the vine tells us it's ready to die & we explore those areas within ourselves that need to die if we are to produce good fruit. (Jan 8 or 15)
- We meet again in March as we assist in creating an environment for growth for the vines and ourselves. (Mar 12)
- Our time together in May begins to see renewal as the vines and our souls participate in the not so tender rituals of Spring. (May 5)
- The celebration of the Summer Solstice brings growth—dramatically visible in our vines and ourselves as we reach for the light. (Evening of June 21)
- Our September gathering is full of activity as we prepare for the Harvest in our lives and in the vineyard—there is still work to be done. (Sept 12)
- And once again the wisdom of the vine announces the day for the Harvest Festival as we celebrate the abundant life that is the result of life's re-creation. (the vines will set this date late Oct – mid Nov)
